## Half Round Recycling Receptacles

“PROFILE” SERIES - FLOOR STANDING & WALL MOUNTED MODELS

### Low Profile Space Saving Designer Recycling Receptacles

Glaro 24" wide half-round recycling receptacles have a 29 gallon capacity and are perfect for busy pedestrian areas. These finely crafted space-saving receptacles are recommended for use in spaces that require additional trash capacity. Manufactured with aluminum and steel, these fire-safe receptacles feature aluminum bottoms and concealed full width rustproof aluminum piano hinged covers. Inner liner cans with lift out handles are constructed of Durable Plastic. This collection is designed and finished to coordinate with all Glaro product lines to create consistency throughout facilities.

### Cover Opening Shapes for Half-Round Recycling Receptacles

Choose from eight models: Models with hinged tops include: (1) a stylish half-round opening for trash, (2) a 5.5" diameter round opening for bottles and cans, (3), a 2.5" x 9.5" slot for paper, (4) a multi-purpose round hole centered on a wide slot for paper, bottles, and cans, (5) three dual purpose models with two openings each, and (6) an open top model is also available.

### Features & Benefits for 24" Wide Recycling Receptacles

- Low profile space saving design
- Selection of top hole opening shapes
- Choose the finish combination for lid and body separately
- Concealed durable piano hinged lid for easy access
- Large selection of baked-on silk screened messages
- Sophisticated upscale design
- Durable Plastic inner liner can included
- Wall mounting option facilitates routine floor maintenance
- ADA Compliant
- Heavy gauge aluminum and galvanized steel fire-safe construction
- Built for indoor and outdoor use
- Custom silk screened messages/logos optional
- Manufactured with recycled metals in the U.S.A.

### Silk Screened Printed Messages and Logos for Recycling Receptacles

Glaro provides a large selection of stock messages. Custom messages, logos, or graphics are also available upon request. Our graphics department can assist with the art work and submit a proof for approval. Every Glaro recycling receptacle has a long lasting silk screened message/logo that is baked on to withstand years of cleaning and exposure. Labels and decals are never used on Glaro receptacles.

**Note:** The message "waste" is provided without the recycling logo whereas all other recycling related messages are supplied with the international recycling symbol.

### 31 Finishes for Half-Round Recycling Receptacles

Solid aluminum models have matching covers and bodies in either clear baked powder coated satin aluminum (SA), or tarnish proof satin brass (BE). Galvanized steel bodies are available in 29 textured and smooth powder coated finishes. For these steel models cover finishes can be satin aluminum (SA), tarnish-proof satin brass (BE), or any one of Glaro's 29 powder coated finishes so that matching or contrasting designs may be created. As a result an attractive customized look can easily be accomplished from this large selection.

Authentic color chip samples are available upon request
