

# Kaleidoscopes

The Kaleidoscope Collection offers innovation for indoor recycling bins. Use Kaleidoscope recycling bins to create the perfect recycling station for your office, school, or business park. Create custom recycling stations for corners, islands, or stand alone units.

Four heavy-duty feet keep the units slightly elevated to allow for air circulation and help restrict mold and mildew growth.

Each container includes a rigid plastic liner with built in handles for easy servicing.

*Best selection, lowest prices.*
