

The Recycle Bin I

The Original 48 Gallon Recycling Container

The Recycle Bin I is the staple recycling container in almost any situation, indoors or out. Good signage, bright colors, and restricted openings on this unit create an effective recycling program. This cost effective and large capacity recycling bin comes in a variety of colors and with three lid options. The bin holds 48 gallons and designed to collect beverage containers for recycling in any indoor or outdoor setting, including parks, offices, schools, athletic fields, and gas stations.

Pair the Recycle Bin I with the Trash Bin I to create a recycling and waste station.
