

The Venue Series

Our Best Perforated Containers

The upscale Venue Series features coordinated trash and recycling receptacles with fully welded, brushed stainless steel bodies with a contemporary perforated pattern. Available with "RECYCLE" or "TRASH" laser cut into center of body. To clearly differentiate waste and recycling streams, the recycling receptacle lid is in recycle blue, the trash receptacle lid is available in black; both with finger-proof texture finish.

Features:

- ADA Compliant
- Over 60% Recycled Material content
- Flat lid with 8" round opening
- Coated security cable keeps lid attached to receptacle body to deter theft & vandalism
- LLDPE liner with lift holes
- Full wrap-around rubber gasket on bottom to protect both the unit and floor surfaces
